

The Home Care Application Process

Navigating the process of getting home care can be overwhelming, but we're here to help every step of the way. Our friendly, bilingual team will guide you through each stage with care and support.

Step 1 – Contact Co.As.It.

Start by contacting us. We'll help you explore the services that best meet your needs and assist you with logging into My Aged Care to determine your eligibility for government-funded support. If you're not eligible, we'll arrange Private Home Care Services tailored to you.

Step 2 – Get Assessed

We can assist with scheduling a free face-to-face assessment and guide you through the preparation process. Assessments are conducted by the Aged Care Assessment Team via My Aged Care.

The assessment helps determine the level of support you need to continue living independently at home, and the funding option you are eligible for.

Step 3 – Arrange Your Service

Once funding is approved, we'll assist you in setting up your home care services with Co.As.It., ensuring your needs are fully met.

Step 4 – Maximise Your Service

With your care in place, you can enjoy the benefits while we handle the ongoing management. You'll receive regular updates, and we'll review your services to ensure they continue to meet your needs.

After trying different providers, I would definitely recommend Co.As.It. to everyone. They are simply the best. Their staff truly care about their clients, and my Case Manager has been so kind and helpful throughout my journey.

We'll Help You Find the Best Home Care Funding Option for You

There are several ways to access home care services, and we're here to help you find the one that best suits your needs. You may qualify for government funding, or you can choose to pay for services privately. The two main government-funded programs are the Commonwealth Home Support Programme (CHSP) and Support At Home (SAH).

We will guide you through your options to ensure you receive the support that's right for you.

Government-Funded
Commonwealth Home Support Programme (CHSP)
